**Membership
brochure**

Flow Batteries Europe (FBE) is a member-led association representing flow battery stakeholders with a united voice to shape a long-term strategy for the flow battery sector.

WHAT'S IN IT FOR YOU

POLICY INSIGHTS

- Receive early information on regulatory developments.
- Lobby for a more favourable legal framework and increasing funding opportunities for flow batteries.
- Participate in the drafting of battery roadmaps and R&I agendas.

FUNDING

Get regular updates on various EU funding opportunities.

NETWORK

Meet other flow battery stakeholders, competitors and potential clients.

Do not miss the opportunity to be part of a unique network of stakeholders across the entire flow battery value chain!

	Fees (€)
Supportive Industry	15 600
Small Enterprises	10 900
Research organisation and university	5 950
Associate member*	3 650
Association member*	2 400
Honorary member*	0

* Does not participate in the Executive Board and has no voting rights

A UNITED VOICE THAT GETS LOUDER...

Established in April 2021,

FBE keeps growing and counts among its members flow battery industry players, start-ups, research centres, and associations.

FBE VISION

To accelerate the decarbonisation in Europe and globally by increasing the deployment of energy storage and flexibility solutions through flow battery applications.

FBE MISSION

FBE aims to gather interested stakeholders to advance the research and development as well as the commercialisation and deployment of flow batteries in Europe. To achieve this, FBE will engage and promote flow batteries with European and other relevant organisations.

FBE WORK

The Association's work is managed by the General Assembly, the Executive Board and three Committees:

- **Business Development:** Works to enhance the profile of flow batteries. Currently is working Flow Battery Business Cases.
- **Communications:** Sets the communications strategy to increase the association's visibility and promote its policy.
- **Technology:** Identifies and promotes the sustainability benefits of flow batteries.
